6 January 1984

Tom Cormack
Executive Secretary

History Staff Bi-Weekly

With the holidays and the AHA meetings, this has been a lean period for the History Staff. As you are aware, Mr. Casey signed off on the report on OSS documents and has read and commented on some of the draft chapters for the Helms history.

This week, [] OTE, called to see if we had any brief history of the DDI or of intelligence analysis that he could use as a hand-out for his course for new analysts. We had to give a negative response.

STAT

Roberta also took a call from [] of the Office of Security Personnel. She said that they wish to bring in a retiree to write a history of the office and wanted to know if there would be any conflict with our work. Roberta told her that we encouraged such efforts and would be willing to provide some measure of guidance or assistance.
